Why Does my Bill Look Different?

Every five years the Cooperative completes a Cost of Service Study (COSS). The COSS consists of 3 elements; establishing the Cooperative's annual revenue requirement, allocating costs equitably across the different rate classifications (different groups of members), and creating a rate structure for each rate classification to cover the costs to serve each rate classification. Following the findings in the 2015 COSS the Board of Directors approved a resolution to revise the rate structure affective April 2016 (see new rate schedule below).

Class	Service Charge	Energy Charge	Demand Charge
Residential 1 (SC-1)	\$20 / month*	\$0.10895 / kWh	\$0.00
Residential 2 (SC-2)	\$25 / month*	\$0.12500 / kWh	\$0.00
Small Commercial (SC-3)	\$20 / month*	\$0.11273 / kWh	\$0.00
Public Authorities (SC-5)	\$19 / month*	\$0.10326 / kWh	\$0.00
Large Commerical (SC-4A)	\$40 / month	\$0.07500 / kWh	\$7 / kW
Summer Peaking (SC-4B)	\$20 / month	\$0.08586 / kWh	\$2.25 / KVA
Industrial (SC-7)	\$500 / month	\$0.05225 / kWh	\$6 / kW

*Monthly Fixed Charges shall increase an additional \$0.50 in April of each of the following years: 2017, 2018, 2019, and 2020. The Formulary Rate Adjustment (FRA) is reduced to \$0.00 and the Power Cost Adjustment (PCA) is reduced by 0.517 cents/kWh, which creates a larger credit in favor of the member. For more information about individual rate classes and additional charges/fees please visit our website at www.dce.coop or call the office at (607) 746-2341. Keep an eye out for upcoming **Energy Efficiency Programs** that will help members conserve energy and save money.
