Capital Credits...

One of the many benefits of being a member-owner of the **Delaware County Electric Cooperative**.

BACK

What are Capital Credits?

Capital Credits represent the investment you make in your Cooperative. Each time you pay your electric bill, the funds are used to pay expenses incurred by DCEC to serve your electric needs. Any surplus is allocated to members each year based on your patronage and reflects your ownership interest in the Cooperative. When the financial condition of your Cooperative allows, capital credits are paid out to members.

For more information about Capital Credits, please call 607-746-2341 or 866-436-1223 or visit www.dce.coop.

★ Members who no longer receive electric service from the Cooperative and whose capital credit balances are less than \$100 are also receiving checks for their full capital credit balances.

Capital Credits Refund

After reviewing Delaware County Electric Cooperative's financial position and determining it to be sound, the DCEC Board of Directors has approved a full Capital Credits refund from 1993 and partial 1994 for a total of \$460,000.

Current members who were actively receiving electric service from DCEC in 1993 & 1994 will receive a credit on their December bill identified as "CAPITAL CREDIT REFUND".

Members who are no longer receiving electric service from DCEC today but did so in 1993 & 1994 will receive a check in the mail provided their refund is \$5.00 or greater.
